PANDITAAI

THE कौशल MARKETPLACE

कौशल (Hindi) · 技能 (Japanese) · 기술 (Korean) · مهارة (Arabic) · ทักษะ (Thai) · НАВЫК (Russian) ·
habilidad (Spanish) · compétence (French)

Capturing human expertise. Training robots in NVIDIA Omniverse.
Deploying physical skills to the real world.

01_THE_PROBLEM

TEACHING ROBOTS HUMAN SKILLS

Software replicates instantly. Physical skills don't — a master chef's knife work, a martial artist's precision, a gardener's touch. We capture expertise from human experts and teach it to robots using NVIDIA Isaac Sim in Omniverse, making any skill downloadable.

SIM TRAINING VS REAL-WORLD

THE SOLUTION IS HERE

02 _ THE _ INSIGHT

HUMAN TO ROBOT SKILL TRANSFER

01. CAPTURE

Work with human experts — martial artists, chefs, dancers, gardeners — to record high-fidelity motion and decision data.

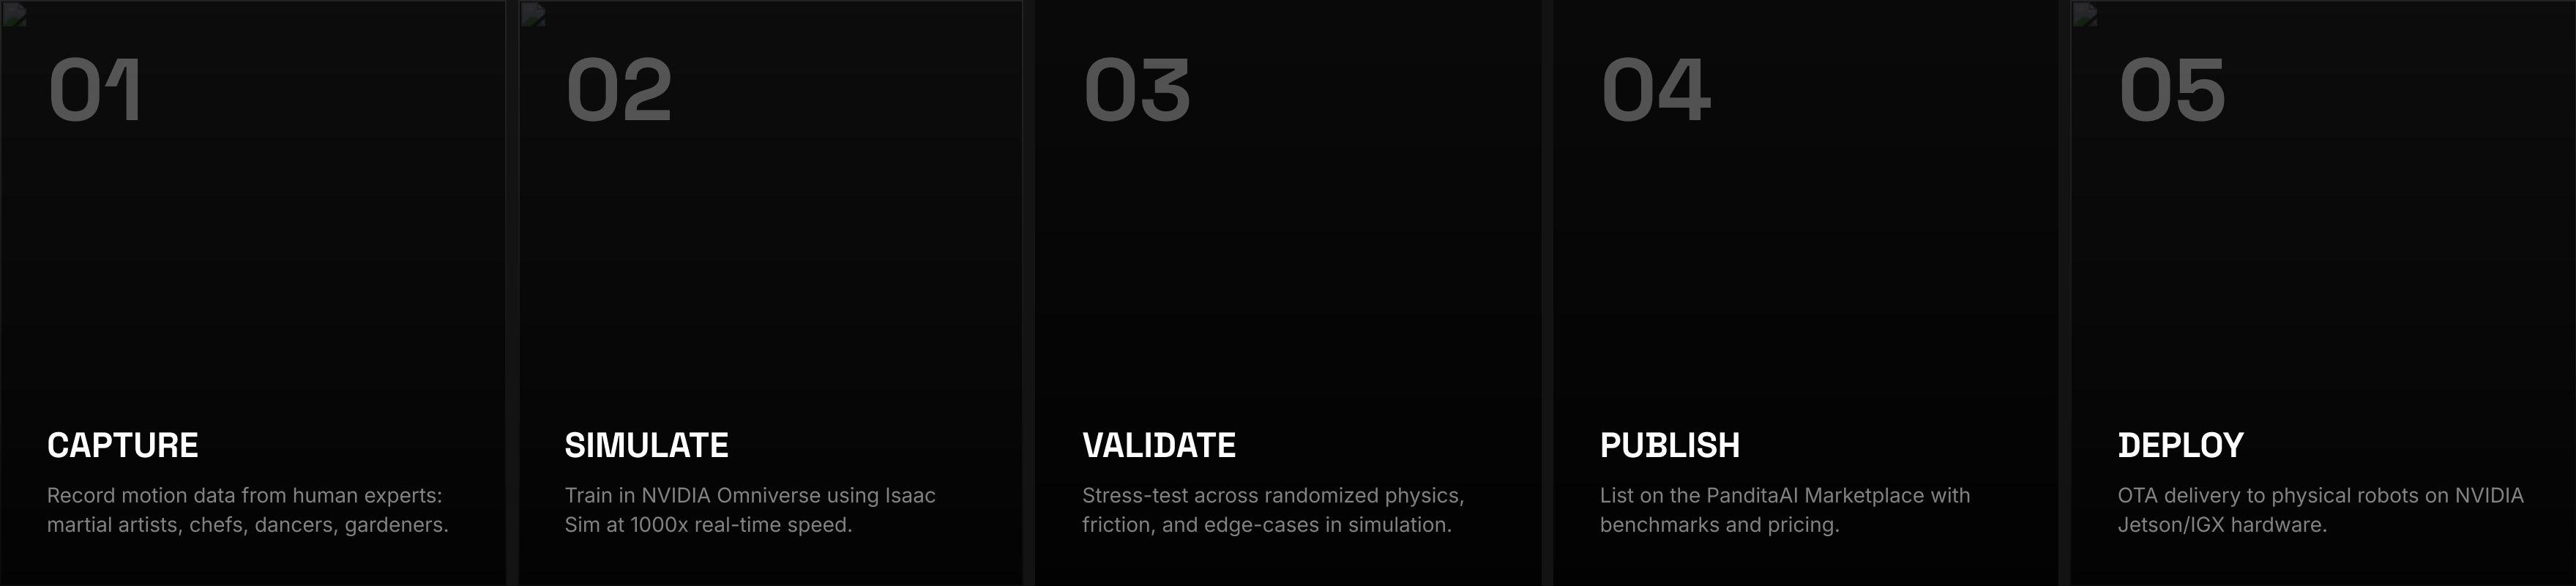

02. SIMULATE

Replicate expert behavior in NVIDIA Omniverse using Isaac Sim. Train robots through millions of parallel simulation cycles.

03. DEPLOY

Transfer trained skills to physical robots via sim-to-real. A master chef's knife technique, now executable by any robot arm.

THE PANDITAAI PIPELINE

 Human expert teaching robot through VR motion capture

SKILL_TRANSFER

THE_ARCHITECTURE

01 EXPERT MOTION CAPTURE

High-fidelity recording of human skill data — movements, force, timing, decision points.

02 OMNIVERSE + ISAAC SIM

Massively parallel training in NVIDIA's digital twin environment at 1000x real-time.

03 SIM-TO-REAL TRANSFER

Domain randomization ensures skills work on real hardware from day one.

THE MARKET_SCALE

\$2.9B humanoid market 2025 → \$14.5B by 2032 (25.8% CAGR)

Physical Intelligence raised \$1B+ at \$5.6B valuation

Skild AI raised \$1.4B at \$14B valuation

Figure AI raised \$1B+ at \$39B valuation

SOURCES: GRAND VIEW RESEARCH, RESEARCH AND MARKETS, PITCHBOOK, BUSINESSWIRE (2025-2026)

SKILL LICENSING

\$300+

Per-skill license fee. Experts earn royalties on every deployment. Skills priced by complexity — walking (\$300) to martial arts (\$1,500+).

PLATFORM FEE

15-20%

Marketplace take rate on every transaction. Revenue share with human experts whose skills are captured and replicated.

FLEET SUBSCRIPTIONS

\$300/mo

Per-robot monthly subscription for enterprises deploying skills at scale. Includes OTA updates and skill versioning.

DEPLOYMENT_TIMELINE

Q2_2026 [NOW]

PROTOTYPING

Procuring Unitree G1 humanoids. Building expert motion capture pipeline. Initial skill recording sessions.

Q4_2026

BETA_MARKETPLACE

First 5 skills trained in Isaac Sim. Beta marketplace live. Sim-to-real transfer validated on Jetson Orin.

Q2_2027

PUBLIC_LAUNCH

20+ skills live. Public marketplace on panditaai.com. Expert partnership program open.

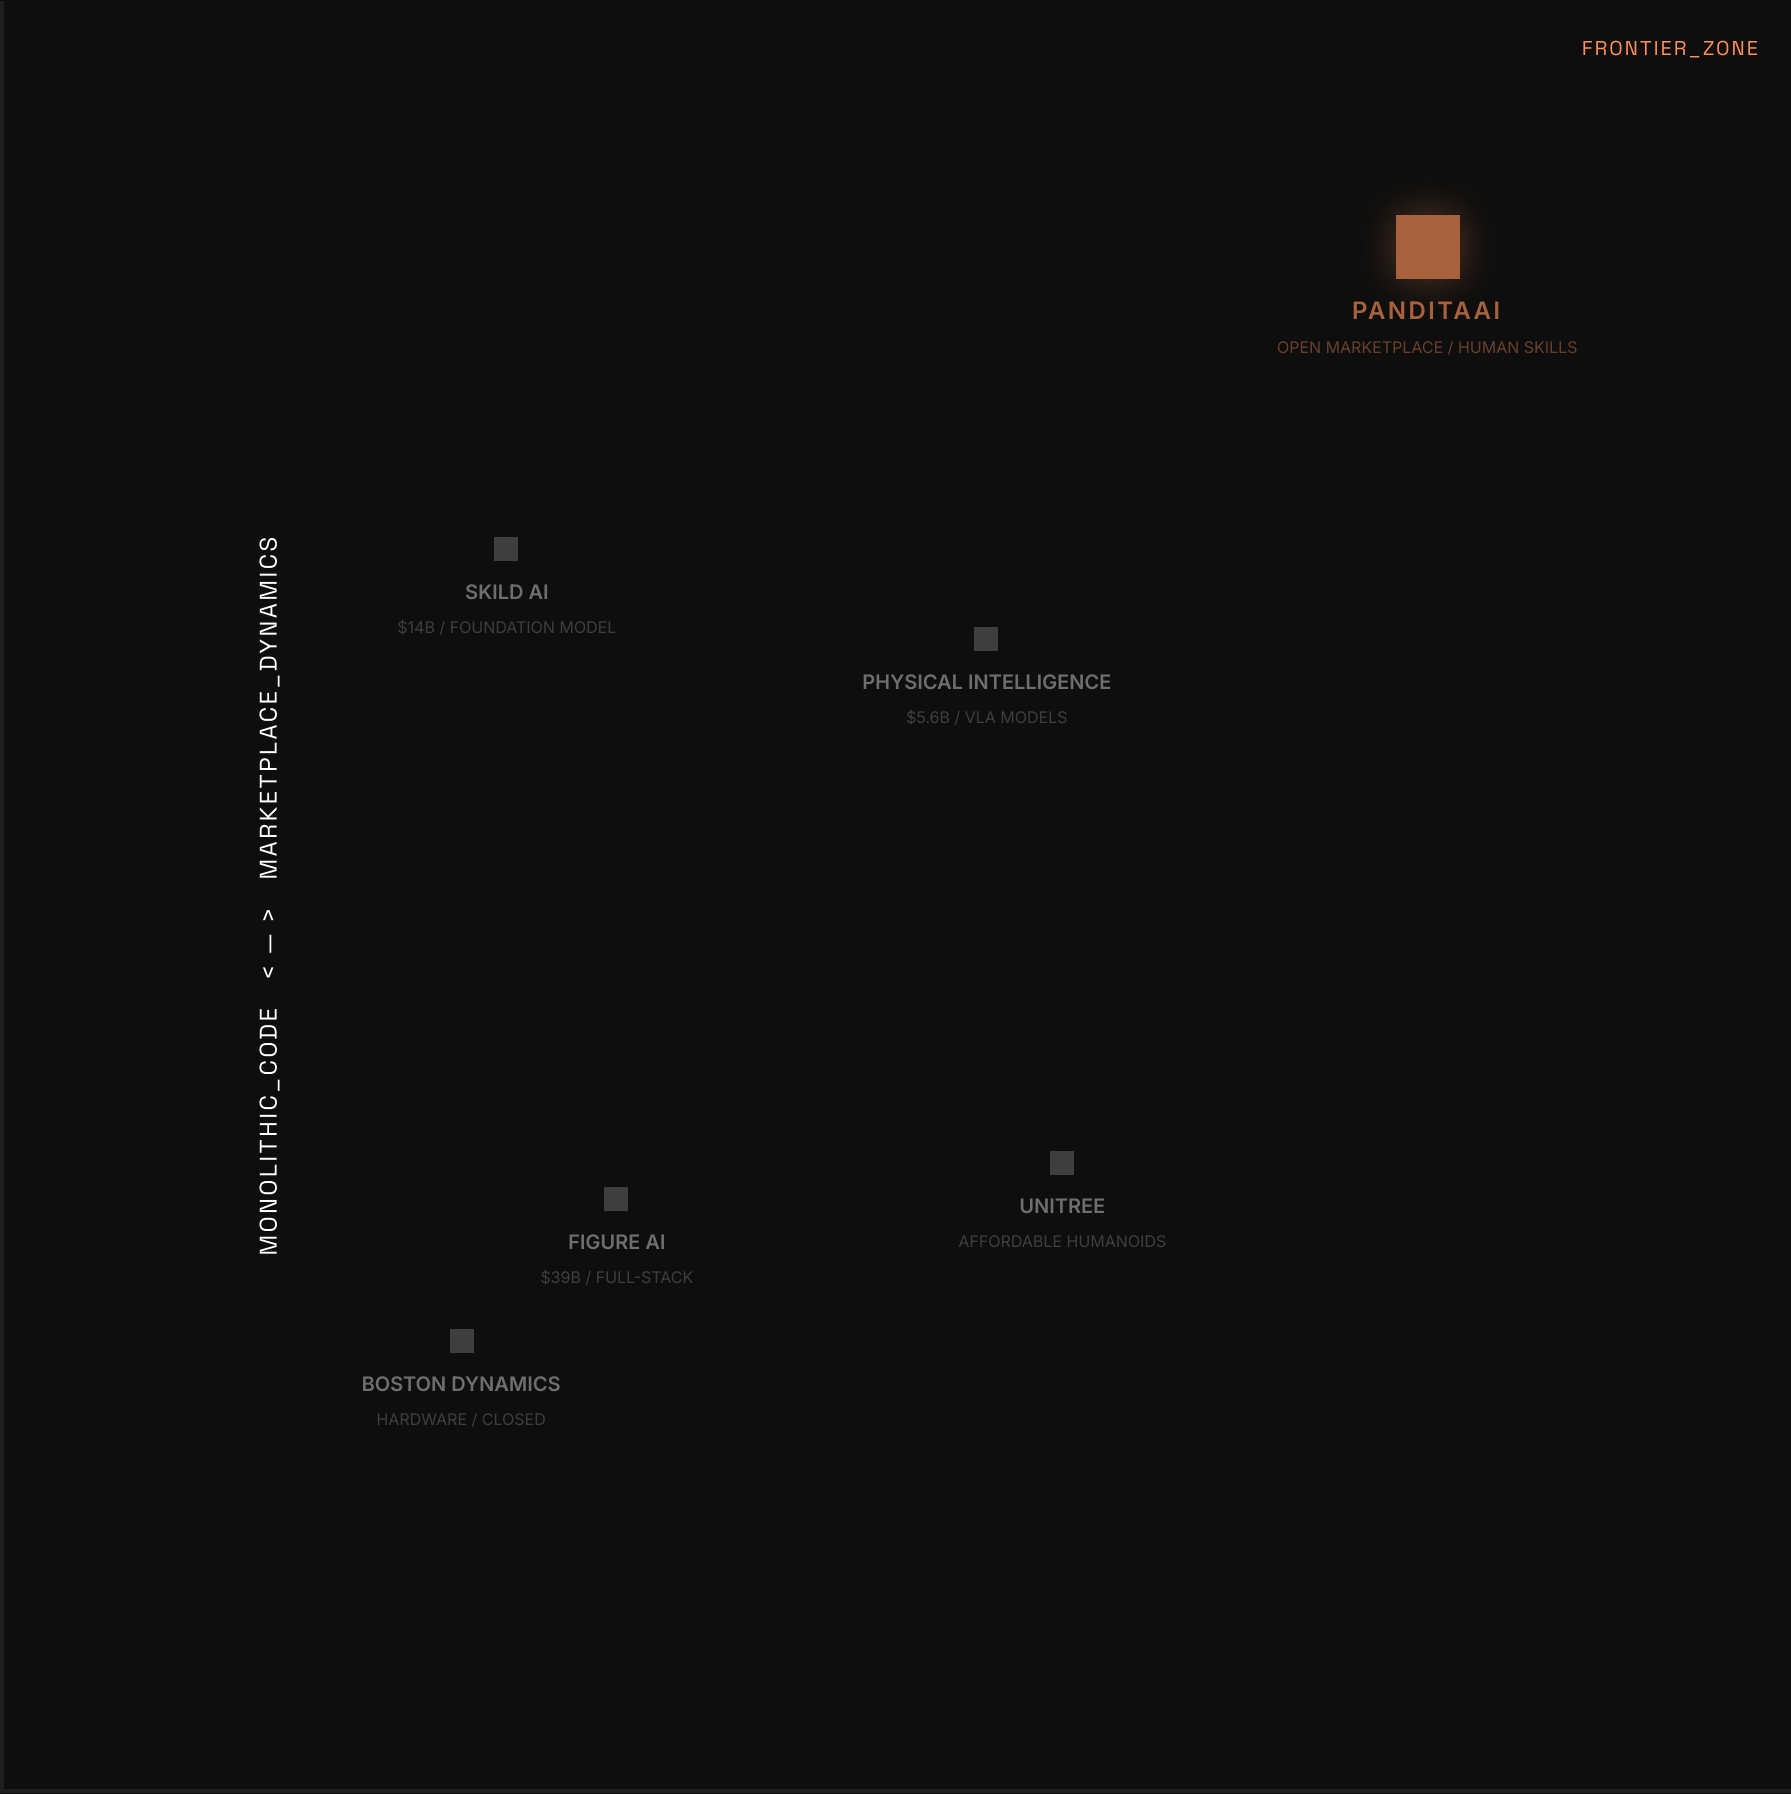

Q4_2027

COMMUNITY_SCALE

Largest open skill catalog for robots. 100+ expert partners. Enterprise fleet deployments.
